

CREATIVE IMAGES

- You are welcome to use the load-in area for setup and craftwork, providing the work area is cleaned up and items returned to their place at the end of your rental period.

- Creative Images assumes you will be bringing your own grip/supplies on most shoots. If you need anything at the last moment, ask. We're happy to look in our grip supplies if you need a specific item forgotten or unforeseen. We have a limited stock of foamcore, gaff tape etc.. for your use. Odds and ends are no charge.

- We can clue you in to local food for delivery, coffee joints, hardware stores and other resources.

Contact us at 651.644.2157 for information on our lighting, audio, and standard or HD video equipment for rent with our studio.
